Note: You'll see the option to renew a title three days before it's set to expire. A *Request again* button will appear under the title on your Loans page. When you renew a digital title, it doesn't extend your lending period. Instead, it lets you borrow the title again immediately after your current checkout expires (if there are no existing holds) or it places you on the wait list to borrow the title again as soon as possible (if there are existing holds).
4. Enter and confirm your email address in the renewal form that opens, then touch the *Submit* button.
Titles that you've requested again will appear on your Holds page and will be automatically checked out to you as soon as they're available again.

**Please note that renewing a title does not mean that it is automatically re-downloaded to your computer or device. If you would like to re-download your renewed title, you will have to return to your library bookshelf and select a download format.
